Reason for Allowance

The following is an examiner's statement of reasons for allowance: the prior art reference of records fails to show a voltage detection circuit comprising a voltage division circuit directly coupled to the bases of the first and second transistors; a serial circuit composed of a rectifying element and resistor and a resistor coupled across the base and the emitter of a second transistor as called for in claims 3, 9 and 13. Therefore, claims 3-6, and 9-15 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
